Agnes Scott College

Location: Decatur, Georgia (suburban)

Undergraduate Enrollment: 870

SAT: 525 – 630 (Critical Reading)

500 – 630 (Math)

530 – 630 (Writing)

ACT Composite: 23 – 29

US News Ranking: #75, Liberal Arts Colleges

Agnes Scott College educates women to think deeply, live honorably and engage the intellectual and social challenges of their times. Students are drawn to Agnes Scott by its excellent academic reputation, exceptional faculty and metropolitan Atlanta location, offering myriad cultural and experiential learning opportunities. A diverse and growing residential community of scholars, this highly selective liberal arts college presents its curriculum with international context. Study abroad is encouraged by offering faculty-led travel tied to classroom study to broaden understanding of cultural values and contrasts. A strong record of student achievement is found in the numbers of Agnes Scott students who earn prestigious scholarships and fellowships. An array of experiential learning opportunities also encourages students to apply learning to career development. By challenging its students to demonstrate leadership in their education and serve their communities at home and abroad, Agnes Scott College delivers on its promise: The World for Women.

SAT: 670 – 750 (Critical Reading)

660 – 740 (Math)

670 – 760 (Writing)

ACT Composite: 30 – 33

US News Ranking: #6, Liberal Arts Colleges

A liberal arts education at Bowdoin is not about being small and safe; it is about having the support to take surprising risks. That means caring more about the questions than giving the right answers, discovering you are good at something you did not think was your strength and making connections where none appear to exist. Bowdoin's curriculum offers a bold blueprint for liberal education designed to inspire students to become world citizens with acute sensitivity to the social and natural world. Its interdisciplinary focus encourages students to make connections among subjects, discover disciplines that excite their imaginations and develop keen skills for addressing the challenges of a changing world.

Equity Group Foundation - Scholarship University Profiles

Bowdoin students achieve at the highest levels but also lead balanced lives. Campus visitors frequently comment on how friendly everyone at Bowdoin is to visitors and how happy everyone seems at Bowdoin. This impression is supported by high retention, graduation and alumni giving rates. The connection to place is vitally important to the educational, social, service and recreational opportunities at Bowdoin. Maine is much more than the College's address.

A Bowdoin education is best summed up by "The Offer of the College": To be at home in all lands and all ages; To count Nature a familiar acquaintance, And Art an intimate friend; To gain a standard for the appreciation of others' work, And the criticism of your own; To carry the keys of the world's library in your pocket, And feel its resources behind you in whatever task you undertake; To make hosts of friends ... Who are to be leaders in all walks of life; To lose yourself in generous enthusiasms, And cooperate with others for common ends. This is the offer of the college for the best four years of your life. --Adapted from the original "Offer of the College" by William DeWitt Hyde, President of Bowdoin College, 1885-1917.

Brandeis University

Location: Waltham, Massachusetts (suburban)

Undergraduate Enrollment: 3,510

SAT: 600 – 710 (Critical Reading)

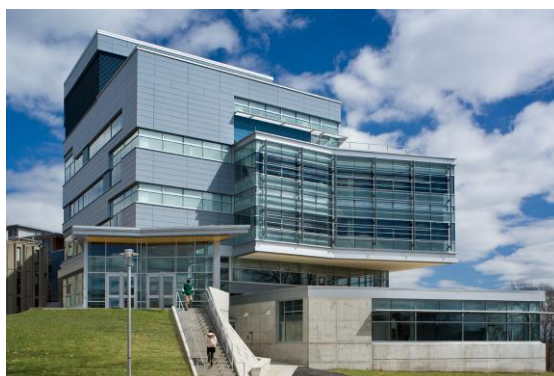

630 – 740 (Math)

630 – 720 (Writing)

ACT Composite: 28 – 32

US News Ranking: #33, National Universities

Education at Brandeis is personal, combining the intimacy of a small liberal arts college and the intellectual power of a large research university. Classes are small and taught by professors, 95% of whom hold the highest degree in their fields. They give students personal attention in state-of-the-art resources, giving them the tools to succeed in a variety of post-graduate endeavors. This vibrant, freethinking intellectual atmosphere was founded in 1948, Brandeis University reflects the values of the first Jewish Supreme Court Justice Louis Brandeis: a passion for learning, commitment to social justice, respect for creativity and diversity, and concern for the world. We have a beautiful park-like campus in metropolitan Boston, with easy access to the city's many attractions.

15 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

Proud of its 8:1 student-to-faculty ratio, the College offers students the opportunity to work closely with professors; more than 500 students collaborate with faculty on independent projects every year. Students may also choose from more than 5,000 courses offered through nearby Haverford and Swarthmore Colleges, as well as the University of Pennsylvania.

Committed to diversity, students come from 47 states and 58 countries and more than a third of Bryn Mawr students are women of color and international students. Minutes outside of Philadelphia and only two hours by train from New York City and Washington, D.C., Bryn Mawr is recognized by many as one of the most stunning college campuses in the United States. Its mixture of collegiate Gothic architecture and post-modern buildings owe much of their beauty to the original campus plan that was created and executed by Fredrick Law Olmsted and Calvert Vaux, landscape architects and the designers of New York's Central Park.

California Institute of Technology

Location: Pasadena, California (suburban)

Undergraduate Enrollment: 980

SAT: 700 – 790 (Critical Reading)

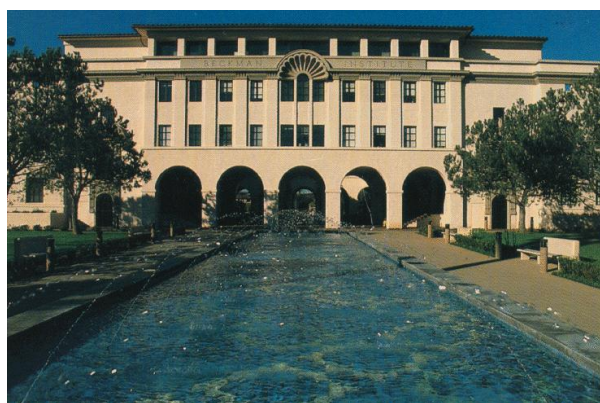

760 – 800 (Math)

700 – 790 (Writing)

3 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

Caltech students are some of the brightest minds from around the world. Our students hail from 49 states and 62 different countries, and 98% of our students placed in the top tenth of their graduating classes. Though the admissions process is competitive--only 13% of applicants receive offers of acceptance--the Institute is committed to making a Caltech education accessible to all students. More than 50% of students receive need-based assistance, the average need-based financial aid package is worth nearly \$35,000, and the average need-based scholarship totals more than \$30,000.

The Institute operates advanced research facilities on its campus and oversees an international network of astronomical observatories, the seismological laboratory, and NASA's Jet Propulsion Laboratory (JPL). Caltech scientists have accelerated scientific discovery and launched new fields in molecular biology, geochemistry, and aerospace. Our faculty have earned 32 Nobel Prizes, 10 National Medals of Technology, 56 National Medals of Science, and 110 memberships in the National Academies. Through the Caltech Office of Technology Transfer, our faculty obtain nearly 140 patents annually, and our students and faculty have started more than 80 companies since 1995.

The Caltech campus is located in the city of Pasadena, just 10 miles from Los Angeles, with access to regional and commercial industrial centers, government agencies, and educational and cultural institutions. Student life at Caltech revolves around the eight campus Houses, which revel in their distinct personalities and unique traditions, including a long history of elaborate pranks carried off around the country. Caltech students can participate in more than 150 clubs that celebrate a wide range of interests or compete in 17 NCAA Division III-level varsity sports. The Honor Code governs life at Caltech, affording students such privileges as take-home tests, permission to collaborate on assignments, and keys to campus buildings.

Carleton College

Location: Northfield, Minnesota (rural)

Undergraduate Enrollment: 2,020

SAT: 660 – 750 (Critical Reading)

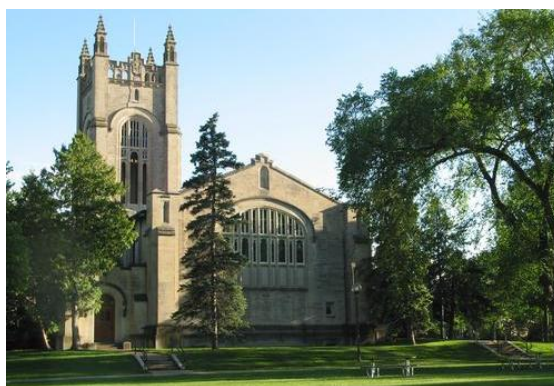

660 – 760 (Math)

660 – 750 (Writing)

ACT Composite: 29 – 33

US News Ranking: #8, Liberal Arts Colleges

Carleton College is a private liberal arts college located in the historic river town of Northfield, MN, 40 miles south of Minneapolis/St. Paul. Best known for its academic excellence and welcoming campus community, Carleton offers 37 majors and 15 concentrations in the arts, humanities, natural sciences, and social sciences. Carleton's student body is notoriously difficult to categorize, but one word to describe it might be curious. Carls are an intellectually insatiable group that approaches learning with enthusiasm, energy, and a uniquely Carleton brand of playfulness. Broad-ranging interests are common, and friendships seem to cross all traditional boundaries.

Equity Group Foundation - Scholarship University Profiles

As students and alumni will tell you, there's just something different about Carleton. Maybe it's the size (about 2,000 students). Or maybe it's the round-the-clock proximity of so many creative minds (most students live and socialize on campus). Whatever the reason, Carleton is a place where students are likelier to cooperate than compete.

The College supports more than 100 student organizations, features numerous a capella vocal groups, comedy troupes, dance groups and drama groups. The College sponsors 20 varsity sports, with a vast club and intramural sports scene that sees nearly 90 percent of the student body partake with a wide spectrum of ability level. Carleton's faculty members are highly respected scholars, researchers, and practitioners in their fields. But above all, their first priority is teaching. A student-faculty ratio of 9 to 1 ensures that Carleton students have plenty of opportunity for interaction with their professors.

Carleton students come from 49 states and 41 other countries. Multicultural students account for 22 percent of Carleton's 2,000 students. More than half of all students receive need-based financial aid and about 80 percent hold jobs on campus. Carleton ranks second among all undergraduate colleges in the number of its students awarded prestigious National Science Foundation Fellowships for graduate study. The College enrolls more National Merit Scholars than any other small liberal arts college in the country, and has had 18 Rhodes Scholars.

The Center for Community and Civic Engagement encourages students to combine traditional volunteer service with scholarly engagement in the community. Opportunities abound for internships, externships, summer research with faculty, and career exploration with alumni. More than 70 percent of the student population participates in off-campus studies.

Carleton brings nationally and internationally distinguished guests to campus as visiting faculty or for weekly convocations, which are free and open to the public. Guests have included astronaut Sally Ride, political activist Winona LaDuke, entrepreneurs Ben Cohen and Jerry Greenfield of Ben & Jerry's ice cream, William Kristol, editor of The Weekly Standard, and Carleton alumnus Barrie Osborne, Oscar award winning producer of "The Lord of the Rings."

Carleton features an 880-acre Cowling Arboretum (also called "the Arb") that provides a network of walking, running, and cross-country skiing trails adjacent to the Cannon River and east of the campus. The Arb was named among the top 10 places to run in the country by Runner's World magazine. The College also has one of the largest undergraduate libraries in the United States, as well as a science complex that consists of a Center for Mathematics and Computing, and buildings for physics and psychology, biology, and chemistry and geology. Opened in 2011, the Weitz Center for Creativity is a working lab for creativity where the arts intersect with all disciplines. An 80,000 square-foot Recreation Center opened in 2000, giving Carls a state-of-the-art athletics and recreation facility. Carleton graduates can be found in the forefront of nearly every professional field, and within ten years of graduating, 75-80 percent of alumni go on to top graduate and professional schools across the country.

Carleton University

Location: Ottawa, Ontario (urban)

Undergraduate Enrollment: 23,200

Carleton is reputed for its strength in a variety of fields, such as engineering, humanities, international business and many of the disciplines housed in its Faculty of Public Affairs (including international affairs, journalism, political science, public policy and administration, and legal studies).

Colby College

Location: Waterville, Maine (rural)

Undergraduate Enrollment: 1,820

SAT: 620 – 710 (Critical Reading)

630 – 710 (Math)

610 – 710 (Writing)

ACT Composite: 28 – 32

US News Ranking: #18, Liberal Arts Colleges

Celebrating its 200th anniversary in 2013, Colby is not resting on its tradition of academic excellence but is looking forward, improving and expanding resources and opportunities for students. While the economy has forced other schools to retrench, Colby is adding professors and will construct a new science building, is finishing a major addition to its art museum, and recently completed a biomass boiler that heats campus buildings using local forest waste products. In 2011 Colby recommitted to its policy of replacing institutional loans in financial aid packages with grants that don't have to be repaid. Plans are being laid for an interdisciplinary center for the humanities, the environmental studies curriculum has been expanded to encompass marine science and sustainability, and visual arts and writing programs are being enhanced.

Testing: SAT *or* 3 subject tests
or
ACT with Writing
and TOEFL

Deadlines: 15 Nov (Early Decision I)
1 Jan (Early Decision II)
1 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

Rigorous academic coursework during spring and fall semesters at Colby is punctuated by focused and independent study during Colby's Jan Plan, giving students opportunities to indulge their intellectual curiosity. Co-curricular and campus life programs, beginning with orientation and continuing all four years with the Colby 360 plan, optimize learning opportunities in student life. Increasingly the Colby community reflects the diversity of the nation and the world, helping graduates acquire the abilities and experience to thrive in the multicultural 21st-century world. The Colby Connect program uses a four-year sequence of activities to prepare students for careers and advanced study. And the Colby Alumni Network provides resources to help graduates as they set out to make a profound impact on the world.

Colgate University

Location: Hamilton, New York (rural)

Undergraduate Enrollment: 2,950

SAT: 620 – 720 (Critical Reading)

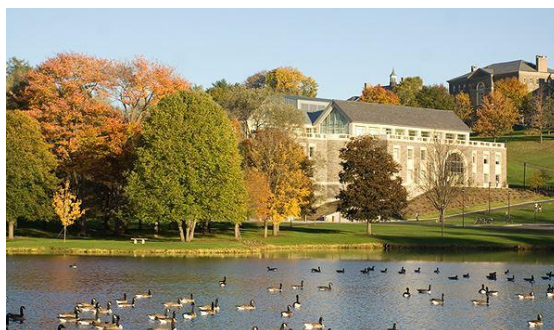

640 – 720 (Math)

620 – 730 (Writing)

ACT Composite: 30 – 32

US News Ranking: #18, Liberal Arts Colleges

Colgate University is a highly selective liberal arts institution distinguished by the dedication of its 275 full-time faculty-scholars, and its commitment to the interdisciplinary liberal arts, undergraduate research, off-campus study programs, Division I athletics, sustainable practices, and residential education. With small classes and heavy emphasis on close faculty-student interaction, Colgate's purpose is to develop wise, thoughtful, critical thinkers and perceptive leaders through residence in a community that values all forms of intellectual rigor. Colgate offers 51 majors to a diverse student body of 2,900 undergraduate students whose academic program consists of courses in the liberal arts core curriculum, courses in the field of major, electives, and physical education classes.

Testing: SAT *or* ACT
and
TOEFL or IELTS

Deadlines: 15 Nov (Early Decision I)
15 Jan (Early Decision II)
15 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

Ninety-eight percent of the university's full-time faculty have achieved the highest degree in their fields, typically the PhD. Students are drawn to Colgate because of the many opportunities to pursue research with faculty members, either as part of their academic-year experience or through summer programs. It is not unusual for a Colgate undergraduate to have co-authored a peer-reviewed journal article prior to graduation. In addition, more than two-thirds of students participate in one of Colgate's more than 20 faculty-led off-campus study programs (or affiliated programs), and/or extended study programs connected to particular courses.

The student body is nearly evenly split between men and women and twenty-five percent self-identify as coming from a multi-cultural background. Student life outside of academics at Colgate includes a wide variety of service-learning opportunities, club sports, an active creative and performing arts community, and housing that includes fraternities, sororities, town houses, apartments, and other residential settings.

This is a particularly exciting time at Colgate. Under the leadership of President Jeffrey Herbst, the university exceeded, 18 months ahead of schedule, its historic \$400-million campaign goal, and immediately set out to raise another \$40 million for financial aid. Three major capital projects, totaling almost 200,000 square feet, have brought the campaign's most visible changes to campus - the new Robert H.N. Ho Science Center, the renovated and transformed Case Library and Geyer Center for Information Technology Center, and the new Trudy Fitness Center. These resources, as well as the participation of 47 percent of alumni in Colgate's annual fund, position the university near the top of the nation's elite liberal arts institutions and assure future steps toward stronger research, more effective use of technology, expanded global studies, and an increased capacity to offer financial aid.

Colorado College

Location: Colorado Springs, Colorado (urban)

Undergraduate Enrollment: 2,030

SAT: 630 – 720 (Critical Reading)
630 – 700 (Math)
620 – 710 (Writing)

ACT Composite: 29 – 32

US News Ranking: #28, Liberal Arts Colleges

Colorado College is a private, liberal arts and sciences institution located at the foot of Pike's Peak and the gateway to the Southwest. The official college motto is "Scientia et Disciplina" or, as one scholar translates it, "Acquiring knowledge and living it." And living it -- that is the essence of Colorado College. Students are living their learning -- in the acquisition, in the sharing, and ultimately in the being out in the world. So is the faculty in their engaged, intensive, interdisciplinary teaching, their one-on-one advising, and their collaborative research with students. And so is the staff, who take students into their lives and serve as teachers in often important and unexpected ways.

Equity Group Foundation - Scholarship University Profiles

Columbia Engineering is one of the oldest engineering schools in the U.S., and unique in its educational approach which includes a guaranteed first-year hands-on design course; close student-to-faculty interaction with extensive undergraduate research opportunities; a broad-based core curriculum, liberal arts minors and interdisciplinary courses; and innovative internship and civic engagement programs in New York City and around the world. Students choose among over 100 majors and concentrations and thousands of research, internship and job opportunities.

Located in the Morningside Heights neighborhood of Manhattan, Columbia not only offers access to all of New York City, the ultimate classroom, but also guaranteed four-year housing within a traditional campus surrounded by a residential neighborhood lined with bookstores, cafes and parks. Called "the quintessential great urban university," Columbia is diverse in every way: students come from 50 states and over 90 foreign countries; over half of undergraduates are students of color, and over 500 student organizations are offered, including 31 Division I Ivy League athletic teams and dozens of community service organizations, performance groups, political clubs and publications.

As the birthplace of FM radio, the fields of genetics and anthropology, the nation's oldest literary magazine and first Black student advocacy group on a multi-racial campus, Columbia has carried on a tradition of both social and scientific innovation for over 250 years. Notable Columbians include Barack Obama, Isaac Asimov, Madeline Albright, Langston Hughes, Jack Kerouac, Julia Stiles, and many more spanning every professional field.

Columbia offers extensive need-based financial aid and meets the full need of every student admitted as a first-year with grants instead of loans. Parents with calculated incomes below \$60,000 and with typical assets are not expected to contribute any income or assets to tuition, room, board and mandatory fees and families with calculated incomes between \$60,000 and \$100,000 and with typical assets have a significantly reduced contribution. To support students pursuing study abroad, research, internships and community service opportunities, Columbia offers the opportunity to apply for additional funding and exemptions from academic year and summer work expectations. A commitment to diversity of every kind is a longstanding Columbia hallmark. We believe cost should not be a barrier to pursuing your educational dreams.

Cornell University

Location: Ithaca, New York (rural)

Undergraduate Enrollment: 14,200

SAT: 630 – 730 (Critical Reading)
670 – 770 (Math)

ACT Composite: 29 – 33

US News Ranking: #15, National Universities

Cornell University was founded in 1865 as a coeducational, nonsectarian institution where "any person can find instruction in any study." Once dubbed "the first American university" in recognition of the revolutionary principles on which it was founded, Cornell continues to push the limits of its founder's vision. Renowned for its distinctive mix of eminent scholarship, academic rigor and commitment to public service, it attracts more than 20,000 students from every state in the Union and over 120 countries. They learn from a world-class faculty teaching more than 5,000 courses and participate in cutting-edge research in 11 undergraduate, graduate and professional schools on the uniquely beautiful Ithaca campus, at Cornell's medical college campuses in New York City and Qatar, and in affiliated programs around the world.

Testing: SAT
or
ACT with Writing

Deadlines: 1 Nov (Early Decision)
2 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

The breadth of study, ranging from legendary programs in the humanities to world-class interdisciplinary research centers in nanotechnology, biotechnology, supercomputing and genomics, sets Cornell apart from its Ivy League peers. The land-grant university of New York State, Cornell also boasts the nation's first colleges devoted to hotel administration, industrial and labor relations, and veterinary medicine. In recent years, Cornell has been aggressively expanding its international programs - from the establishment, in 2001, of the Weill Cornell Medical College in Qatar, the first American medical school outside of the United States, to the forging of partnerships and collaborations with major institutions in China, India, and Singapore - further supporting Cornell's status as the transnational university of the future.

Dartmouth College

Location: Hanover, New Hampshire (rural)

Undergraduate Enrollment: 4,200

SAT: 670 – 780 (Critical Reading)

690 – 790 (Math)

690 – 790 (Writing)

ACT Composite: 30 – 34

US News Ranking: #10, National Universities

Founded in 1769, Dartmouth is one of the oldest and most respected institutions of higher learning in the United States. A member of the Ivy League, Dartmouth has a long history of dedication to the highest educational ideals. With its world-class faculty and facilities, and nationally and internationally renowned graduate programs in engineering, business, medicine and the arts & sciences, the school has resources that very few universities can match. In addition, by maintaining a highly flexible quarter-system calendar, and allowing only faculty to teach its undergraduate courses, Dartmouth assures that students have complete and timely access to all that the institution has to offer.

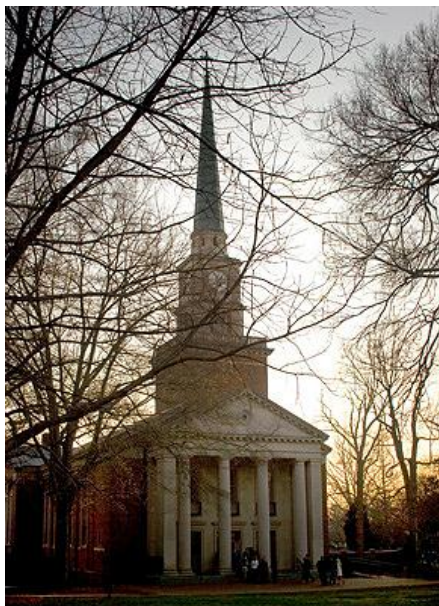

Testing: SAT *or* ACT with Writing
and
2 subject tests
and TOEFL *or* IELTS

Deadlines: 1 Nov (Early Decision)
1 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

Faculty: The professors at Dartmouth are among the leaders in their fields, yet they remain fully committed to teaching. Even the most senior professors teach first-year courses. Recipients of more than \$202 million in annual research grants and consistently ranked among the most respected teachers in American higher education, Dartmouth professors are true exemplars of the phrase teacher-scholar. Through course-related discussions, research collaborations, and casual conversation, students get to know their professors as instructors, mentors, colleagues, and friends.

Undergraduate Students: Dartmouth students come from 47 states and more than 91 countries. The population is divided almost evenly between men and women. More than a third of the students identify themselves as students of color (36%) or non-US citizens (7%). Over half of the students receive some form of need-based financial assistance to cover the cost of their education. Dartmouth disburses more than \$88 million in need-based aid each year. Prior to Dartmouth, 54% of the students attended public secondary schools and 46% attended private or parochial schools. Once on campus, they take full advantage of the academic resources Dartmouth has to offer, and get involved in the more than 300 officially recognized organizations.

Davidson College

Location: Davidson, North Carolina (suburban)

Undergraduate Enrollment: 1,760

Dickinson College, founded in 1773, is a highly selective, private residential liberal-arts college known for its innovative curriculum. Its mission is to offer students a useful education in the arts and sciences that will prepare them for lives as engaged citizens and leaders. The 120-acre campus (90-acre main campus, including a 30-acre recreational area close by, and a 180-acre farm six miles from campus) is located in the heart of historic Carlisle, Pa. The college offers 42 majors with an emphasis on international studies, has more than 40 study-abroad programs in 24 countries on six continents and offers 13 modern languages. Exceptional curricular strengths include global education and environmental sustainability.

Duke University

Location: Durham, North Carolina (suburban)

Undergraduate Enrollment: 6,500

SAT: 660 – 750 (Critical Reading)

690 – 780 (Math)

670 – 770 (Writing)

ACT Composite: 30 – 34

US News Ranking: #8, National Universities

Duke University offers a unique and compelling combination of academic achievement, engagement with society, and athletic accomplishment at the highest levels. A private comprehensive teaching and research university, Duke traces its roots to 1838, officially becoming Duke University in 1924. In addition to liberal arts and engineering education at the undergraduate level, Duke offers graduate and professional study in arts and sciences, business, divinity, engineering, the environment, law, public policy, medicine, and nursing. At the same time, Duke is an intimate setting, with 6,800 undergraduates and an additional 6,000 graduate and professional students.

Duke is a global university with students and faculty from nearly every country. We encourage students to go abroad to study, perform service and conduct research. About half of Duke's graduating class spends at least a semester in another country - one of the highest percentages of any of the nation's top private research universities. We offer instruction in 25 foreign languages. One of our most popular programs is DukeEngage, which supports undergraduates who want to pursue an immersive service experience in the U.S. or abroad.

Duke is characterized by innovation, entrepreneurship, energy and ambition. Duke students have an unusually wide range of opportunities available to them and freedom in choosing the academic path that best meets their needs. Duke students are encouraged to make a difference, to experiment with ideas and organizations and they are challenged to become engaged with society's problems and solutions.

Equity Group Foundation - Scholarship University Profiles

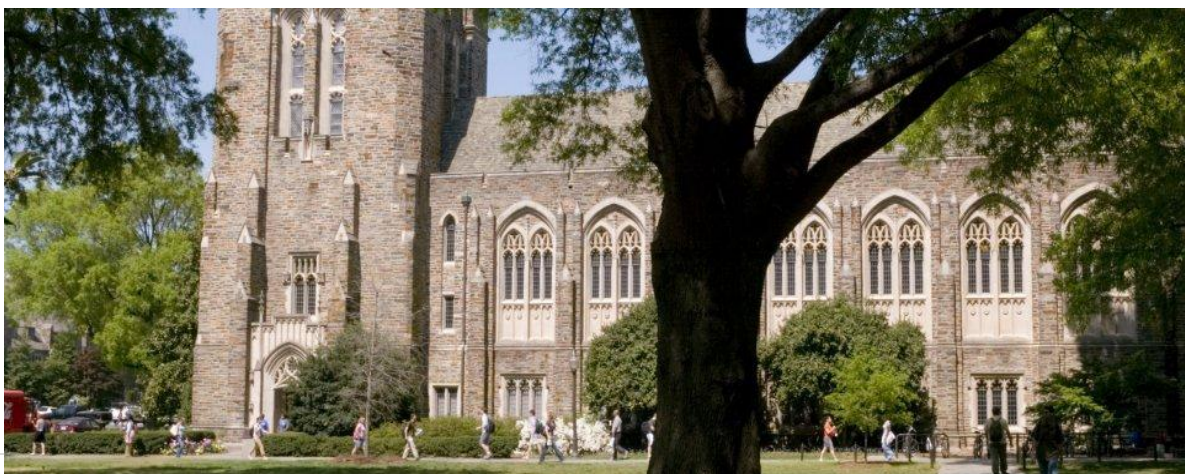

Our students spend four years on one of the most beautiful campuses in America -- soaring Gothic buildings, modern teaching and research facilities, lush botanical gardens, and accessible athletics and recreational spaces. Duke's home of Durham is a historic tobacco and textile hub that has emerged as the heart of North Carolina's hi-tech Research Triangle, and is consistently recognized as one of the most desirable and vibrant places to live in the country. Durham's arts, culture, recreation and restaurants have earned a national following, and the region provides numerous opportunities for post-graduate employment.

Duke students exhibit legendary passion and enthusiasm. Duke's athletic program is regularly ranked among the nation's strongest and most competitive, with some of the country's most talented scholar-athletes and dedicated fans: the Cameron Crazies. A member of the Atlantic Coast Conference, Duke has thirteen men's varsity teams and thirteen women's varsity teams as well as numerous intramural, recreational, and club sports. Duke consistently leads the ACC in Academic Honor Roll students and is a top producer of Academic All Americans.

The residential experience is an important component of a Duke education. About 85 percent of all undergraduates live on campus. First-year students live together on East Campus, where about a quarter of them participate in FOCUS, a living/learning program organized around academic themes, which gives them immediate access to faculty mentoring and a smaller community of students they get to know well.

Duke is one of a small number of schools committed to a need-blind admission policy, which means we admit undergraduates without consideration of a family's ability to pay tuition and other college costs and meet 100 percent of a student's demonstrated financial need for four years. About 54 percent of our undergraduates receive some sort of financial assistance, including need-based aid, merit or athletic scholarships.

With the rigorous academics, the plethora of social and artistic activities, the immersive service and cultural opportunities and the occasional basketball game in Cameron Indoor Stadium, the most important things students need to bring with them to Duke are energy and intellectual curiosity.

EARTH University

Location: Limon, Costa Rica (rural)

Undergraduate Enrollment: 410

Since 1990, EARTH University's innovative educational approach has been preparing young people from Latin America, the Caribbean and other regions, including Africa and Asia, to contribute to the sustainable development of their countries and construct a prosperous and just society. EARTH offers a rigorous four-year undergraduate program in agricultural sciences and natural resources management and a prestigious, international faculty, providing a world-class scientific and technological education that emphasizes values, ethical entrepreneurship and environmental and social commitment.

Equity Group Foundation - Scholarship University Profiles

EARTH University's curriculum is based on four formative areas designed to prepare students with the competencies required to respond to the needs of today's world. These include:

- Technical and scientific knowledge: Ensuring that EARTH alumni have the professional competencies to sustainably manage agriculture and natural resources.
- Personal development, attitudes and values: Fostering self-awareness, empathy, respect, tolerance, teamwork, effective communication and life-long learning along with those values that promote peace, dialog and understanding.
- Ethical entrepreneurship: Developing in students an entrepreneurial spirit, so that they will be capable of proactively generating opportunities and solutions to problems. Students form and operate a business venture from beginning to end during their first three years studying at EARTH, gaining a comprehensive understanding of what it takes to start a business.
- Social and environmental awareness and commitment: Developing students' social and environmental responsibility and strengthening their capacity to generate positive change.

The teaching and learning process at EARTH University is dynamic and participatory, and EARTH professors serve as facilitators of learning. Our educational approach is based on two principals:

1. Student-centered learning: Students, alone or in groups, explore real challenges and become active participants in generating knowledge, as opposed to passive receptors of information.
2. Experiential learning: Students learn through deliberate experiences designed to encourage learning and are given opportunities to build knowledge and develop abilities which they can put into practice while they are learning.

At Emory, students have four options for their undergraduate education. Entering freshmen can apply to Emory College, which offers a liberal arts education within the heart of a major research university. Students also can apply to Oxford College where students spend the first two years on Emory's original campus 38 miles east of Atlanta. Oxford offers a small-college setting with the same academic strengths, innovative teaching and unique opportunities for leadership. As juniors, students continue from Oxford to the Atlanta campus. As juniors, students can choose from more than 70 majors in Emory College. They can also apply to the renowned Goizueta Business School to earn a bachelor of business administration. Students who aspire to a nursing career can earn their degree at the Nell Hodgson Woodruff School of Nursing, one of the nation's top private nursing schools.

Undergraduate Enrollment: 1,700

SAT: 600 – 720 (Critical Reading)
610 – 710 (Math)

ACT Composite: 28 – 32

US News Ranking: #22, Liberal Arts Colleges

When Grinnell College framed its charter in the Iowa Territory of the United States in 1846, it set forth a mission to educate its students "for the different professions and for the honorable discharge of the duties of life." The College pursues that mission by educating young men and women in the liberal arts through free inquiry and the open exchange of ideas. As a teaching and learning community, the College holds that knowledge is a good to be pursued both for its own sake and for the intellectual, moral, and physical well-being of individuals and of society at large.

US News Ranking: #16, Liberal Arts Colleges

Students come to Hamilton to find their voice. As a national leader in teaching students to write effectively, learn from each other and think for themselves, Hamilton produces graduates who have the knowledge, skills and confidence to make their voices heard on issues of importance to them and their communities.

Testing: SAT *or* 3 subject tests
or
ACT with Writing
and TOEFL

Deadlines: 1 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

A key component of the Hamilton experience is the College's open curriculum. In place of distribution requirements that are common at most colleges, Hamilton gives its students freedom to choose the courses that reflect their unique interests. Faculty advisors assist students in planning a coherent and highly individualized academic program - in fact, close student-faculty relationships are a distinguishing characteristic of the College - but ultimately students at Hamilton take responsibility for their own future.

Part of that future includes a lifelong relationship with the College. Hamilton alumni are exceptionally loyal and passionate supporters of their alma mater and the students and faculty who live and work on College Hill. That support manifests itself through internships, speaking engagements on campus, job-shadowing opportunities and financial donations. Due to the extraordinary generosity of alumni, Hamilton is one of fewer than 50 colleges and universities in the U.S. that are need-blind in admission and that meet the full demonstrated need of every student they accept.

Hampshire College

Location: Amherst, Massachusetts (rural)

Undergraduate Enrollment: 1,490

SAT: 590 – 700 (Critical Reading)

540 – 650 (Math)

580 – 670 (Writing)

ACT Composite: 25 – 29

US News Ranking: #112, Liberal Arts Colleges

Hampshire College prepares students to understand and to participate responsibly in a complex world. Hampshire is an innovative liberal arts college with a multidisciplinary approach that develops well-educated lifelong learners with the capacity to go beyond received knowledge and conventional beliefs. As students pursue self-initiated, individual programs of study negotiated with faculty mentors, they develop confidence in their intellect and creativity. Active participation in original research and detailed narrative evaluations from their professors help students build successively more sophisticated critical abilities and skills.

Equity Group Foundation - Scholarship University Profiles

The college's multicultural curriculum and commitment to civic and social engagement for all members of the community develop an understanding of the diverse nature of our world and the necessity for responsible leadership. Within the college's residential community students encounter and learn to respect differences and appreciate diversity, enhancing their capacity to live together well. Hampshire is located in the rich educational environment of the Five College consortium (Hampshire, Amherst, Mt. Holyoke, and Smith Colleges and the University of Massachusetts at Amherst), which provides students the opportunity to engage in the extraordinary academic and social offerings of all five campuses.

Harvard University

Location: Cambridge, Massachusetts (urban)

Undergraduate Enrollment: 10,280

SAT: 680 – 600 (Critical Reading)

700 – 800 (Math)

690 – 790 (Writing)

ACT Composite: 31 – 35

US News Ranking: #1, National Universities

Harvard is located in Cambridge, Mass., just outside of Boston. Harvard's extensive library system houses the oldest collection in the United States and the largest private collection in the world. There is more to the school than endless stacks, though: Harvard's athletic teams compete in the Ivy League, and every football season ends with "The Game," an annual matchup between storied rivals Harvard and Yale. At Harvard, on-campus residential housing is an integral part of student life. Freshmen live around the Harvard Yard at the center of campus, after which they are placed in one of 12 undergraduate houses for their remaining three years. Although they are no longer recognized by the university as official student groups, the eight all-male "final clubs" serve as social organizations for some undergraduate students; Harvard also has five female clubs.

Testing: SAT *or* ACT with Writing

1 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

In addition to the College, Harvard is comprised of 13 other schools and institutes, including the top-ranked Business School and Medical School and the highly ranked Graduate Education School, School of Engineering and Applied Sciences, Law School, and John F. Kennedy School of Government. Eight U.S. presidents graduated from Harvard College, including Franklin Delano Roosevelt and John F. Kennedy. Other notable alumni include Henry David Thoreau, Helen Keller, Yo-Yo Ma, and Tommy Lee Jones. In 1977, Harvard signed an agreement with sister institute Radcliffe College, uniting them in an educational partnership serving male and female students, although they did not officially merge until 1999. Harvard also has the largest endowment of any school in the world.

Haverford College

Location: Haverford, Pennsylvania (suburban)

Undergraduate Enrollment: 1,200

SAT: 650 – 750 (Critical Reading)

650 – 750 (Math)

660 – 760 (Writing)

ACT Composite: 30 – 33

US News Ranking: #9, Liberal Arts Colleges

Haverford College provides a liberal arts education in the broadest sense, fostering an uncommon spirit of inquiry, debate, problem solving, creativity, ingenuity, and love of learning. A sense of high principle, both academically and personally, is the watermark of a Haverford education. It is embodied in the honor code and reflected in the lives of alumni. Haverford's traditional emphasis on a rich curriculum, on undergraduate involvement in faculty research -- all students are required to complete a Senior Thesis -- and the connecting of academics to issues of social justice is extended by three interdisciplinary Centers: The Hurford Humanities Center; The Center for Peace and Global Citizenship and The Koshland Integrated Natural Science Center.

Bowdoin students achieve at the highest levels but also lead balanced lives. Campus visitors frequently comment on how friendly everyone at Bowdoin is to visitors and how happy everyone seems at Bowdoin. This impression is supported by high retention, graduation and alumni giving rates. The connection to place is vitally important to the educational, social, service and recreational opportunities at Bowdoin. Maine is much more than the College's address.

A Bowdoin education is best summed up by "The Offer of the College": To be at home in all lands and all ages; To count Nature a familiar acquaintance, And Art an intimate friend; To gain a standard for the appreciation of others' work, And the criticism of your own; To carry the keys of the world's library in your pocket, And feel its resources behind you in whatever task you undertake; To make hosts of friends ... Who are to be leaders in all walks of life; To lose yourself in generous enthusiasms, And cooperate with others for common ends. This is the offer of the college for the best four years of your life. --Adapted from the original "Offer of the College" by William DeWitt Hyde, President of Bowdoin College, 1885-1917.

Lehigh University

Location: Bethlehem, Pennsylvania (suburban)

Undergraduate Enrollment: 4,870

SAT: 580 – 680 (Critical Reading)
640 – 720 (Math)

ACT Composite: 28 – 31

US News Ranking: #38, National Universities

Lehigh prepares students and scholars in a rigorous academic environment that thrives on creativity, innovation and interaction. Our students see the world as a dynamic place, where their ideas, imagination and new thinking create positive change. Lehigh has long played a groundbreaking role in interdisciplinary research and education. Faculty work closely with students across disciplines and translate research and theory into practice. This personal contact between students and faculty members across each of our four colleges provides all of our students with an opportunity to learn in a warm and collaborative atmosphere.

Equity Group Foundation - Scholarship University Profiles

Our students benefit from a rigorous curriculum designed to include international perspectives, study abroad with substantial academic and cultural experience, faculty with worldwide experience and a community engaged in issues that matter. They come to Macalester to learn, engage, explore, invent, have fun, make friends, devise, design, discover and gain the experience, skills and knowledge needed to fulfill their dreams and their greatest ambitions. Discussions in and out of the classroom are enriched by the experiences and perspectives of students who are citizens of over 90 countries.

Macalester's ideal location in a vibrant residential neighborhood of a major metropolitan area is unusual for a highly-selective liberal arts college. Minutes from downtown St. Paul and Minneapolis, it offers students a wealth of research and internship opportunities in business, finance, medicine, science, government, law, the arts and more.

Students come from around the world, across the nation and nearby to study in an environment that supports inspiration, success and service to local, national and international communities. The college provides a comprehensive approach to preparing students to flourish as vital citizens of the world. Macalester does this in an atmosphere that fosters collaboration and success. It inspires ambitious, committed and talented young people who have the potential to change the world, and prepares them to do just that. They also benefit from a rich network of alumni, who include: a Vice President of the United States (Walter Mondale) and a Secretary-General of the United Nations who was a Nobel Peace Prize winner (Kofi Annan); members of Congress; leaders of fortune 500 companies; award-winning actors, authors, artists, poets, producers and playwrights; Fulbright and Rhodes scholars; Peace Corps volunteers and scientists.

MIT admits some of the most talented students in the world on a need-blind basis. The Institute is committed to meeting the financial need of each admitted undergraduate student through MIT scholarships; the average student scholarship was \$31,926 per year in 2011. As a result, the MIT community is incredibly diverse, and organically collaborative, with students coming from many different backgrounds, across the country and around the world.

Students are frequently encouraged to unite MIT's engineering excellence with public service. For example, the required senior capstone design course for mechanical engineering majors centers on making the world a better place through engineering. Recent years have focused on projects using alternative forms of energy, and machines that could be used for sustainable agriculture. Beyond academic coursework, MIT's D-Lab, Poverty Action Lab, and Public Service Center all support students and professors in the research and implementation of culturally sensitive and environmentally responsible technologies and programs that alleviate poverty and improve quality of life in low-income areas locally, nationally, and worldwide.

The MIT community brings its energy and creativity outside the classroom as well with 400+ student-run groups, 33 varsity sports, 20 intramural sports, 30 club sports, and over 500 arts-related events on campus each year. Campus is just a short walk across the Charles River to Boston where students can enjoy the city's fabulous restaurants or take in Boston culture. Many programs around MIT allow students to get reduced-price tickets to various events, including the Boston Symphony Orchestra, the American Repertory Theater, and Bruins, Celtics, and Red Sox games. Students get free admission daily to the Museum of Science, the Museum of Fine Arts, and all Harvard University and MIT museums.

Michigan State University

Location: East Lansing, Michigan (suburban)

NYU - Abu Dhabi

Location: Abu Dhabi, United Arab Emirates
(urban)

Undergraduate Enrollment: 450

As a liberal arts college and research university, NYU Abu Dhabi offers 22 majors in the area of Arts and Humanities, Social Science, Science, Engineering and Mathematics. Undergraduate students graduate with a Bachelor of Science or Bachelor of Arts degree. As a prerequisite for graduation, students are required to take courses from the core curriculum, which encompasses topics in world literature, social studies, arts, and natural science. Over their college years, undergraduates take four 3-week courses in January that count toward their graduation requirement. Students' education also includes a capstone project in their senior year, a project similar to a senior thesis. Additionally, students are encouraged to study up to two semesters at New York University's Global Network sites in Accra, Berlin, Buenos Aires, Florence, London, Madrid, Paris, Prague, and Shanghai.

Oberlin College

Location: Oberlin, Ohio (rural)

Undergraduate Enrollment: 2,960

SAT: 650 – 740 (Critical Reading)

630 – 720 (Math)

640 – 740 (Writing)

ACT Composite: 28 – 32

US News Ranking: #26, Liberal Arts Colleges

Oberlin is often celebrated as the 'college of firsts,' having been on the front lines of history since its founding in 1833. It was the first college in America to adopt a policy to admit students regardless of race (1835) and the first to award bachelor degrees to women in a coeducational program (1841). Progressive ideas continue to shape the student experience today. Students, faculty, and alumni pursue a remarkable spectrum of social, political, artistic, scientific, and environmental causes. Oberlin attracts academically and musically talented individuals who care deeply about the world and who are compelled to make it a better place. The Oberlin campus comprises a highly selective liberal arts college, a world-class music conservatory, and the top-ranked Allen Memorial Art Museum. Central to this stimulating learning environment is a faculty focused on teaching undergraduates-scholars who contribute significantly to their fields through writing, research, and performance.

Oberlin enrolls about 2,900 students, including 175 students who earn degrees simultaneously from both the Conservatory of Music and the College of Arts and Sciences in the Double Degree Program. Students in both divisions live, eat, and study together on a single campus. All enjoy the nearly 500 musical concerts and recitals that take place each year on campus, in addition to performances in popular music, theater, dance, opera, poetry, and comedy. The Allen Memorial Art Museum collection ranks among the top five of any academic museum in the country. The Science Center promotes collaboration across disciplines and among students and faculty mentors. Research labs include a supercomputer, confocal microscope, and 600-MHz NMR spectrometer. Each summer about 100 students receive stipends for research with faculty in science, social science, and humanities.

Campus architecture is also distinct, with buildings designed by Cass Gilbert, Minoru Yamasaki, Robert Venturi, and William McDonough. The Environmental Studies Center (2001)-one of the first solar-powered academic buildings in the nation--has photovoltaic arrays totaling 160 Kw and produces most of the energy it consumes on location. In buildings across campus, a resource monitoring system encourages energy conservation with real-time displays of electricity and water usage. Oberlin has four LEED certified buildings: art museum, jazz studies facility, first-year dorm and field house.

About 90 percent of Oberlin students live on campus. Students may opt to live in one of nine program houses, including Afrikan Heritage House, Asia House, German House, and Third World House. Students create and participate in more than 160 campus organizations. Each year more than 1,200 participate in community service. Nearly 75 percent enjoy learning experiences abroad during their college careers.

Since 1920, more Oberlin graduates have earned PhDs than have graduates of any other primarily undergraduate institution. During the January Winter Term, students explore the value of self-education. The Creativity & Leadership Project, open to students in any major, offers entrepreneurship courses and grants to help students put innovative ideas into practice. Nearly one-quarter of the student body participates in the Oberlin Student Cooperative Association, which offers alternatives to traditional campus housing and dining. Four residential coops and nine dining coops (including Kosher and vegan) are student-run and provide experiences in shared responsibility and decision-making. Oberlin's rare white squirrels have become an unofficial school mascot, reflecting the value we place on diversity and individual expression. We prize creativity and individuality while upholding high standards of intellectual inquiry, debate, and service to society.

Pomona College

Location: Claremont, California (suburban)

Undergraduate Enrollment: 1,570

SAT: 680 – 780 (Critical Reading)

690 – 770 (Math)

680 – 780 (Writing)

ACT Composite: 31 – 34

US News Ranking: #4, Liberal Arts Colleges

Pomona offers its 1,500 students-evenly divided between men and women-a comprehensive curriculum in the arts, humanities, social sciences and natural sciences. With a student-faculty ratio of eight to one, students have the opportunity to work closely and collaboratively with professors who are also top scholars in their fields. Students and faculty challenge each other in laboratories, classrooms, and co-curricular activities, and everyone benefits from the energy generated by such an assemblage of sharp and eager minds. Friendships forged among Pomona faculty and students frequently endure far beyond the four years of college.

Testing: SAT and 2 subject tests
or
ACT
and TOEFL or IELTS

Deadlines: 1 Nov (Early Decision I)
1 Jan (Early Decision II)
1 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

Few institutions offer Pomona's ability to combine intimate qualities as an average class size of 14 with such large-scale resources as a two-million-volume library. Fewer have enrolled as talented and high achieving a student body which is as happy with their environment and choice. As the founding member of The Claremont Colleges, a unique consortium of seven independent institutions on adjoining campuses, Pomona offers its students the experience of a small, academically superb liberal arts college and the breadth of academic and social resources normally associated with major universities.

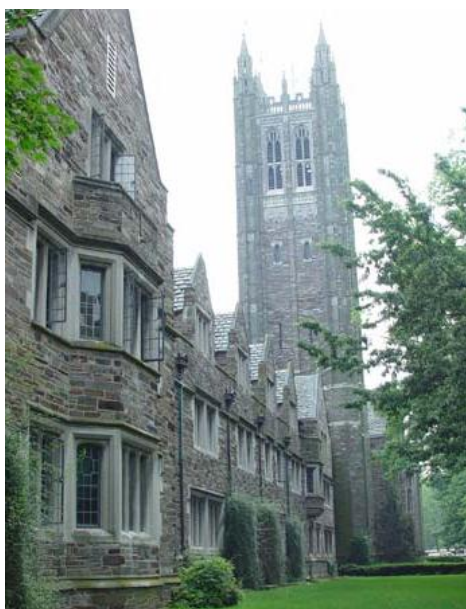

Students challenge and learn from one another not only in the classroom but also in daily life. On-campus housing is guaranteed, and few students choose to live anywhere else. The extraordinary ethnic and social diversity of its student body gives Pomona a broader mix of backgrounds than just about any comparable educational institution.

Our location-within an hour of the Pacific Ocean, the Mojave Desert, the San Gabriel Mountains and the city of Los Angeles-informs and shapes daily life at the College. There aren't many places in the world where you can ski in the morning, play on the beach in the afternoon, and take in a major league baseball game or an opera at night. Beyond the recreational and cultural possibilities, our location offers unequalled opportunities for field study, community involvement and internships.

Pomona students are so varied that they resist easy categorization. They embrace new ideas, take initiative, ask questions and challenge the status quo. They are as academically capable a group as any college or university can claim, and they are interested in doing something important with their talents. Our students share a spirit of openness and collaboration. Our students are competitive but not cutthroat - a very important distinction. They work hard, but don't compare grade point averages to peers. Maybe it's the weather or the palm trees but, we tend to think it's something more: a cooperation fostered by faculty in the lab and classroom. Professors encourage collaboration, and many students continue working together after class, forming study groups that meet in the residence halls, in lounges and computer labs and over laptops and shakes at the Coop Fountain.

Students come to Pomona from every state in the nation and from many other countries, from private and public schools, from large cities, suburbs and towns so small they don't appear on most maps. More than one-third are students of color, and a substantial portion are in the first generation of their families to attend a four-year college or university.

To maintain the remarkable strength and variety of Pomona's student body, the College's financial resources are critical. Over half of Pomona's students receive financial aid from the College to support their study, and the College meets 100 percent of the demonstrated financial need of every enrolled student. This practice ensures that the most capable students will always be able to enroll at Pomona regardless of their financial circumstances.

Princeton University

Location: Princeton, New Jersey (suburban)

Undergraduate Enrollment: 5,180

SAT: 700 – 790 (Critical Reading)

710 – 800 (Math)

700 – 790 (Writing)

ACT Composite: 31 – 32

US News Ranking: #1, National Universities

Princeton University is unique in combining the strengths of a major research university with the qualities of an outstanding liberal arts college. Whether through independent study, student-initiated seminars, or lectures in emerging fields such as neuroscience, Princeton students have the flexibility to shape dynamic academic programs that prepare them for leadership and lives of service. Through its groundbreaking financial aid program, Princeton ensures that all qualified students who are accepted can afford to attend the University.

Chartered in 1746, Princeton is renowned for its commitment to undergraduate teaching. Its faculty are known throughout the world and it is not unusual for students to learn from Nobel laureates, Pulitzer Prize winners, and MacArthur fellows. Students benefit from small class sizes and one-on-one advising with faculty, particularly while doing independent work such as the senior thesis. All intellectual endeavors of Princeton's 5,150 degree-seeking undergraduate students are supported by a range of first-rate academic resources, such as libraries, laboratories, and even an art museum. The academic options at Princeton give students flexibility in pursuing their intellectual interests while working toward either the Bachelor of Arts or the Bachelor of Science in Engineering. Students also may choose from among 46 interdisciplinary programs, creating combinations of academic interests. For example, a student might major in physics while also earning a certificate in Latin American studies.

The University is located in the town of Princeton, which has a diverse population of 30,000 residents and is situated between New York City and Philadelphia, with rail service to both cities. Princeton is a residential university that provides a welcoming environment, advising services, cultural and educational events, intramural sports, and more. As a residential community, Princeton provides housing for all four years. Princeton's six residential colleges offer settings where students quickly can become involved in campus activities. Students can participate in more than 250 student-run organizations, the arts, civic engagement, student government, religious groups, and athletics.

Reed College

Location: Portland, Oregon (urban)

Undergraduate Enrollment: 1,460

SAT: 670 – 750 (Critical Reading)

630 – 720 (Math)

650 – 740 (Writing)

ACT Composite: 29 – 33

US News Ranking: #75, Liberal Arts Colleges

At Reed College, a small liberal arts institution in Portland, Ore., students won't find a few traditional college staples: Greek organizations, varsity sports, or course grades. Instead, students—or Reedies, as they're called—can select from about 150 other student organizations and can compete on intramural and club sports teams. Professors assign a letter grade for coursework, but students will only be informed of the grade if it is below a C. There is no dean's list or honor roll because the school evaluates students on a pass or no-pass scale.

or
ACT
and TOEFL

Deadlines: 15 Nov (Early Decision I)
20 Dec (Early Decision II)
15 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

Out of classes, which tend to be rigorous, there are celebrations throughout each semester to keep students entertained. In the fall, students gather for the Halloween Harvest Ball, among other formal dances, and the campus celebrates the end of classes each spring with the weekend-long Renn Fayre Festival. Freshmen do not have to live on campus, but they are guaranteed a dorm room. Portland, a city of more than 1 million people, is about a 15-minute bus ride away. To enjoy Oregon's outdoors, students can join in on planned Outing Club trips or organize their own. Skiers and snowboarders may want to take advantage of the Reed ski cabin, a lodge in Mount Hood where students, alumni, and faculty can stay. The ski cabin is less than 90 minutes from campus by car. Water sports fans can also find surfing and sea kayaking options in the Pacific Ocean about 90 minutes from campus.

Rice University

Location: Houston, Texas (urban)

Undergraduate Enrollment: 3,720

SAT: 650 – 750 (Critical Reading)
680 – 780 (Math)
650 – 760 (Writing)

ACT Composite: 30 – 34

US News Ranking: #17, National Universities

Undergraduate education has remained at the center of Rice University's mission since its founding nearly 100 years ago. Our students have unparalleled opportunities to learn from distinguished faculty through classroom interaction and research collaboration. Rice combines the advantages of a liberal arts college, including small class sizes and a low faculty to student ratio, with the resources and facilities of a premier research university. The distinctive residential college system enhances the Rice experience by allowing students to flourish as individuals in a community of their peers.

Testing: SAT and 2 subject tests

and TOEFL

Deadlines: 1 Nov (Early Decision)
1 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

Rice's comparative advantages lie in our relatively small size, our emphasis on undergraduate education, our focused areas of strength, the relative ease by which we can foster interdisciplinary study, and our possibilities for teaching and research excellence across the range of human knowledge and endeavor. Rice boasts a just a 6:1 student-faculty ratio, a median class size of 13, an endowment of \$4.45 billion, numerous opportunities for undergraduates to conduct primary research, and a strong sense of community fostered by our residential college system. Rice practices need-blind admission, meets 100 percent of students' demonstrated need, and is consistently heralded as one of the best values in higher education.

Rutgers University

Location: Newark, New Jersey (urban)

Undergraduate Enrollment: 5,200

SAT: 460 – 560 (Critical Reading)

500 – 610 (Math)

480 – 570 (Writing)

US News Ranking: #115, National Universities

Rutgers, The State University of New Jersey, embodies the historical development of higher education in the United States. From its colonial inception as Queen's College in 1766, the institution grew to become Rutgers College in 1825. In 1864 it was designated the state's land-grant institution. Assuming university status in 1924, it was further transformed by legislative acts in 1945, and in 1956 the institution became Rutgers, The State University of New Jersey. 1989 marked another historic milestone when the university became a member of the Association of American Universities (AAU), connoting its position as one of the major public comprehensive research universities in the U.S., and the only one of its kind in New Jersey.

Testing: SAT

or

ACT

or TOEFL

Deadlines: 8 Nov (Early Action)

Equity Group Foundation - Scholarship University Profiles

Rutgers' evolution is not yet complete. Strategic goals for Rutgers University established by university president Richard L. McCormick and the Board of Governors in 2004 are intended to provide a pathway for achieving two overarching aspirations for the university -- greater academic distinction and more significant service to communities beyond campus, particularly to the citizens of our state. In carrying out its threefold mission of instruction, research and public service, Rutgers strives to uphold the following principles. To conduct fundamental and applied research, to train scholars, researchers and professionals, and to make knowledge available to students, scholars and the general public. To maintain its traditional strength in the arts and sciences, while simultaneously developing such new professional and career-oriented programs as are warranted by public interest, social need, and employment opportunities. To make its educational programs accessible to an appropriately broad student body. To extend its resources and knowledge to various sectors of the public, and to bring its special expertise to bear on the solution of public problems. In fulfilling its mission of service to the state of New Jersey, Rutgers maintains three main campuses in strategic regions of the state: Camden, Newark, and New Brunswick. In addition, through the extension agents of its agricultural experiment station, Rutgers has a presence in all 21 counties of New Jersey.

Skidmore College

Location: Saratoga Springs, New York (rural)

Undergraduate Enrollment: 2,690

SAT: 570 – 680 (Critical Reading)

580 – 670 (Math)

580 – 680 (Writing)

ACT Composite: 26 – 30

US News Ranking: #43, Liberal Arts Colleges

Located in Saratoga Springs, N.Y., Skidmore is an independent, coeducational liberal arts college known for its creative approaches to just about everything. Hence, the college's core belief that creative thought matters. With a diverse student body of 2,400 from 40 countries and 40 states and a faculty of 250 dedicated teacher-scholars (student-to-faculty ratio: 9 to 1) the college offers majors in the sciences, social sciences, and humanities, as well as in career-specific fields such as management and business, social work, education, and exercise science. Add to this the prominence of the performing and visual arts, which have long set Skidmore apart.

1 Jan (Early Decision II)
1 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

Faculty have earned recognition from Guggenheim, Pulitzer, and Emmy awards to fellowships and grants from Fulbright, MacArthur, and the National Science Foundation, among others. Skidmore is known for its interdisciplinary approach to learning, collaborative student-faculty research, and off-campus study program (nearly 60% of students study abroad). The college's rigorous academic program begins with the First-Year Experience, which integrates the curricular, cocurricular, and residential aspects of a student's first year. Students select a Scribner Seminar from among 50 offerings. Seminar faculty take seriously their role as advisors and mentors, serving as each of their students' advisors until they have selected a major. Students in each seminar are housed in rough proximity to each other in residence halls to cultivate richer learning-living communities in which lasting friendships are often formed.

The college's curriculum emphasizes foundations in the liberal arts and interdisciplinary study. Many students carry two majors or add a related minor to their major. Students can choose from 140 study-abroad programs, including Skidmore programs in Beijing, London, Paris, and Spain. They can also spend a semester at any of 200 colleges and universities in the U.S., including historically black- and Hispanic-serving institutions. Other academic features include Skidmore's Honors Forum which sponsors the annual Academic Festival, internships for credit, and service-learning courses. Skidmore's Opportunity Programs for talented students whose economic or academic circumstances might otherwise make it difficult for them to attend college are among the nation's best.

The beautiful 890-acre campus, 300 acres of which consists of the recreation- and field-research-rich North Woods, has been recently upgraded with key renovations to science, athletics, dining, and residential facilities. Skidmore's newest building, opened in 2010, is the Zankel Music Center, a 54,000-square-foot facility with a spectacular 600-seat recital hall and state-of-the-art recording studio. In addition, the Northwoods Apartments, opened in 2007 for upperclassmen, feature "green" apartments which use geothermal heating and cooling systems. And the Tang Teaching Museum and Art Gallery, opened in 2000, has earned a national reputation through exhibitions that feature contemporary art but also address disciplines such as the natural and social sciences. The college's 100 student clubs and organizations run the gamut, including a capella groups, SkidTV, WSPN Radio, Model European Union, snowboarding, and academic, cultural awareness, and religious groups. Skidmore's 19 intercollegiate teams compete at the NCAA Division III level. In the past decade, teams have earned six national championships and 35 Liberty League titles. As for location, who wouldn't want to go to college in Saratoga Springs? A downtown brimming with shops, galleries, coffeehouses, and great restaurants. Boston, New York City, and Montreal are a three-hour car ride from campus. And the Adirondacks, Berkshires, and Green Mountains provide opportunities for skiing, mountain biking, hiking, rock-climbing, and kayaking.

Smith College

Location: Northampton, Massachusetts (suburban)

Undergraduate Enrollment: 2,630

SAT: 600 – 730 (Critical Reading)

600 – 710 (Math)

620 – 720 (Writing)

ACT Composite: 27 – 31

US News Ranking: #18, Liberal Arts Colleges

What draws students to Smith College is the intellectual challenge and rich extracurricular experience offered by an outstanding top-ranked liberal arts college. The rigorous academic program is demanding yet flexible. Smith's broad open curriculum - anchored in the sciences and the humanities and arts - allows unlimited choices. Although each first-year student is required to complete at least one writing-intensive course, there are no other required courses outside a student's field of study. With more than a thousand course offerings in more than 50 areas of study, the curriculum is rich in cross-disciplinary explorations of issues and scholarly conventions outside the Western standard.

Testing: SAT
or
ACT
and TOEFL or IELTS

Deadlines: 15 Nov (Early Decision I)
1 Jan (Early Decision II)
15 Jan (Regular Decision)

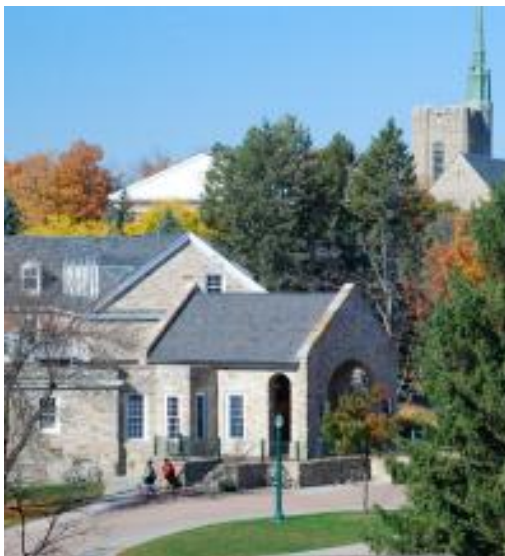

Equity Group Foundation - Scholarship University Profiles

A host of unique study abroad programs in addition offer opportunities for students to expand their liberal arts curriculum. The Smith environment promotes faculty-student collaboration, and some of the research projects borne of that teamwork are legendary. For every 9 students there is a Smith professor to encourage, guide and inspire. Smith professors are a world-class group of scholars who are engaged and accessible who consider teaching undergraduates to be their most important job.

In 1999, Smith became the first women's college in the nation to offer a program leading to a degree in engineering. At Smith, students are trained as engineers and at the same time educated broadly in the liberal arts. As with its engineering students, Smith is devoted to developing the best in each student. The college gives Smith students the ability to harness their skills and knowledge in a wide variety of opportunities that, in addition to academic coursework, includes internships, study abroad programs and leadership positions.

Smith's New England campus is located on 147 acres of tree-lined paths and streets. Larger than most liberal arts colleges in the United States, Smith provides unique resources and outstanding facilities including: Ford Hall, the new science and engineering building with a gold-level LEED certification; the Smith College Museum of Art, widely acknowledged as one of the most important art collections at an American college; a campus center; the largest undergraduate library system of any liberal arts college in the country; extensive performance facilities; and a multi-building science complex of teaching and research laboratories and classrooms. All of Smith's resources, unlike those at many universities, are primarily for undergraduate students.

Smith is a partner in the Five College Consortium, one of the nation's most notable and successful collaborations of higher education institutions. Through the consortium - which includes Smith, Amherst, Hampshire and Mount Holyoke colleges and the University of Massachusetts at Amherst - students may choose from more than 5,000 additional undergraduate courses offered at the nearby campuses, all within a 12 mile-radius of one another.

St. Lawrence University

Location: Canton, New York (rural)

Undergraduate Enrollment: 2,360

SAT: 570 – 660 (Critical Reading)

580 – 660 (Math)

570 – 660 (Writing)

ACT Composite: 25 – 29

US News Ranking: #56, Liberal Arts Colleges

St. Lawrence University is a vibrant, collaborative community of learners who value thought and action. Students tap their full potential as they embrace the natural environment, engage with global challenges, and experience the relevance and adventure of a liberal arts education in a complex and changing world. We provide an inspiring and demanding undergraduate education to students selected for their seriousness of purpose and intellectual promise. The University's 2,400 students come from throughout the nation and world.

Equity Group Foundation - Scholarship University Profiles

Located between the high peaks of the Adirondack Mountains and the national capital of Canada, the University provides unparalleled access to international government, cultural and social opportunities and outdoor recreation. Sustainability is a core University value, by trustee resolution. Among the features of St. Lawrence's curriculum are international programs in 17 nations and three domestic off-campus programs (including an Adirondack Semester and New York City Semester), a nationally recognized, model interdisciplinary program for first-year students; and 12 interdepartmental programs. St. Lawrence has undergone an educational renaissance, with ambitious academic initiatives and major facilities improvements throughout campus but especially in the sciences and the arts. A new science complex, the only LEED Gold-certified science complex in New York State, opened in the fall of 2007 and new performance hall opened in the fall of 2010.

Stanford University

Location: Stanford, California (suburban)

Undergraduate Enrollment: 7,030

SAT: 670 – 770 (Critical Reading)

690 – 780 (Math)

680 – 780 (Writing)

ACT Composite: 30 – 34

US News Ranking: #6, National Universities

In 1885, Jane and Leland Stanford established Stanford University in memory of their son. Their intent was to establish a "University of high degree" that would "qualify students for personal success and direct usefulness in life and promote the public welfare by exercising an influence on behalf of humanity and civilization." Today, Stanford is a research university where teaching, learning and research are all integral to the university's mission. Stanford values close interaction between undergraduates and faculty. Student participation in research is strongly supported.

Stanford's entrepreneurial character draws from its Western location and the legacy of its founders. Academic excellence crosses disciplines, ranging from humanities to social sciences to engineering and the sciences. Stanford emphasizes multidisciplinary approaches to teaching and research and has established university-wide initiatives to address worldwide problems in human health, the environment, international affairs and K-12 education. Current faculty have 17 Nobels and 4 Pulitzers. Students, distinguished by initiative, love of learning and commitment to public service, are talented in many areas, including academics, art, music and athletics. Stanford's athletic teams, called the Cardinal, have won the Director's Cup as the best program nationwide 17 years in a row. Stanford's extraordinary campus is located in a dynamic and diverse area between San Francisco and San Jose in Northern California. The campus is considered among the most beautiful anywhere. The Bing Overseas Studies Program has offerings in 12 countries, and other Stanford programs take students to the Hopkins Marine Laboratory on Monterey Bay and to Washington D.C.

Swarthmore College

Location: Swarthmore, Pennsylvania (suburban)

Undergraduate Enrollment: 1,545

SAT: 680 – 770 (Critical Reading)
670 – 760 (Math)
680 – 770 (Writing)

ACT Composite: 30 – 34

US News Ranking: #3, Liberal Arts Colleges

Swarthmore College, a highly selective college of liberal arts and engineering, celebrates the life of the mind. Since its founding in 1864, Swarthmore has given students the knowledge, insight, skills, and experience to become leaders for the common good. The College is private, yet open to all regardless of financial need; and decidedly global in outlook, drawing students from around the world and all 50 states. So much of what Swarthmore stands for, from its commitment to curricular breadth and rigor to its demonstrated interest in facilitating discovery and fostering social responsibility, lies in the quality and passion of its faculty.

A student/faculty ratio of 8:1 ensures that students have close, meaningful engagement with their professors, preparing them to translate the skills and understanding gained at Swarthmore into the mark they want to make on the world. The College's Honors program features small groups of dedicated and accomplished students working closely with faculty; an emphasis on independent learning; students entering into a dialogue with peers and teachers; and an examination at the end of two years study by outside scholars. Swarthmore's idyllic, 425-acre arboretum campus features rolling lawns, a creek, wooded hills, and hiking trails, and is located just 11 miles from Philadelphia.

Trinity College

Location: Hartford, Connecticut (urban)

Undergraduate Enrollment: 1,780

SAT: 580 – 680 (Critical Reading)

600 – 690 (Math)

610 – 700 (Writing)

ACT Composite: 26 – 29

US News Ranking: #38, Liberal Arts Colleges

Trinity College is an independent, nonsectarian liberal arts college located in Connecticut's historic capital city of Hartford. Founded in 1823, Trinity brings the tradition of liberal arts into the 21st century with a dynamic living and learning community. Approximately 2,300 students work closely with faculty, extend their education through campus activities, engage with the city through internships and community service, and explore the wider world through study abroad and international initiatives. Our mission is to foster critical thinking, free the mind of parochialism and prejudice, and prepare students to lead examined lives that are personally satisfying, civically responsible, and socially useful.

Berkeley is comprised of 14 schools and colleges, including a number of graduate and professional schools such as the School of Optometry, Graduate School of Journalism, and College of Environmental Design. Other graduate programs are the highly ranked Haas School of Business, Graduate School of Education, College of Engineering, School of Law, School of Social Welfare, School of Public Health, and Goldman School of Public Policy. Berkeley is well known as a hub of liberal student activity: the Free Speech Movement—a 1964 student protest at Berkeley in response to the administration’s attempt to remove student political groups from campus—gained widespread national attention. Distinguished alumni include former U.S. Supreme Court Chief Justice Earl Warren, Olympic gold medalist Jonny Moseley, and actor John Cho of the Harold and Kumar films. Dr. J. Robert Oppenheimer, scientific director of the Manhattan Project during WWII to develop the atomic bomb, was a physicist and professor at Berkeley.

University of Chicago

Location: Chicago, Illinois (urban)

Undergraduate Enrollment: 5,400

SAT: 700 – 790 (Critical Reading)
700 – 780 (Math)

ACT Composite: 31 – 34

US News Ranking: #4, National Universities

The University of Chicago is universally recognized for its devotion to open and rigorous inquiry. The strength of our intellectual traditions, intense critical analysis, free and lively debate, creative solutions to complex problems rests on the scholars who continue to engage them. Our College graduates have made discoveries in every field of academic study; they are ambitious thinkers who are unafraid to take on the most pressing questions of our time. Their accomplishments have helped establish the University's legacy as one of the world's finest academic institutions.

The University of Chicago has been home to over 85 Nobel Prize-winners, over 200 Guggenheim fellows, 30 Macarthur "genius" fellows, and 20 Pulitzer Prize-winners. And with over 140 research centers and institutes; numerous world-class theaters, museums, and art centers; and three of the nation's top professional schools in law, business, and medicine all within blocks of one another on our campus, UChicago is renowned for the unparalleled resources it provides its undergraduate students.

Rooted in Hyde Park, a neighborhood home to both our 215-acre campus, certified as a botanical garden, and about 60% of the private homes of our faculty, UChicago offers a true campus-based community within the context of a major American city. Our students engage the city of Chicago and its many neighborhoods through groundbreaking research and scholarship, unparalleled internship opportunities, and a commitment to community service. Just as Chicago is a global city, the University of Chicago remains a truly international university, offering faculty-led study abroad programs all across the globe as well as in conjunction with our centers in Beijing, London, Paris, and Singapore.

UChicago maintains a student-faculty ratio of 6:1, ensuring that every classroom experience exemplifies our commitment to a student's ability to interact closely with our faculty. Our famous Core curriculum provides students with a common vocabulary and a well-balanced academic experience, while allowing them the flexibility to explore their own particular interests in small discussion-style seminars. Students also enjoy a highly successful Division III sports program, small but active Greek life, forty student theatrical productions a year, a rich music scene, celebrations of different cultures and communities, and the extraordinary opportunities in politics, music, theater, commerce, architecture, and neighborhood life in the city of Chicago.

University of Kentucky

Location: Lexington, Kentucky (suburban)

Undergraduate Enrollment: 20,120

SAT: 490 – 620 (Critical Reading)

500 – 630 (Math)

480 – 590 (Writing)

ACT Composite: 22 – 28

US News Ranking: #125, National Universities

The University of Kentucky is a public land grant institution that prepares students for an increasingly diverse and technological world. The University offers a broad array of undergraduate, graduate, and professional degree programs, many with national prominence. The University strives to nurture a true learning community - one that inspires academic growth and learning among faculty, staff, and students. The University's research, scholarship, and creative activities support human and economic development through the expansion of knowledge and its applications in the sciences, social sciences, education, arts, humanities, business, and the professions.

One of the strongest and most diverse student bodies in the nation -- a community, composed of students from every state and more than 100 countries, that has produced more Rhodes Scholars over the last 25 years than any other public university and the eleventh most overall.

Academic opportunities that will prepare students to change the world -- innovative programs not found anywhere else, such as our respected and inclusive Honors Program, and opportunities to contribute to ground-breaking research and study abroad in more than 70 countries.

"Best value" in the nation among public universities by Kiplinger's Personal Finance eleven consecutive times -- outstanding merit-based scholarships, such as the Morehead-Cain, Pogue, and Robertson, as well as a need-based aid program that meets full need and enables qualified low-income students to graduate debt-free through the Carolina Covenant.

One beautiful campus -- a classic university setting within the dynamic town of Chapel Hill, where friendly classmates, exciting events, and state-of-the-art resources are only a short walk away.

University of Notre Dame

Location: South Bend, Indiana (suburban)

Undergraduate Enrollment: 8,450

SAT: 660 – 750 (Critical Reading)
680 – 770 (Math)

ACT Composite: 32 – 34

US News Ranking: #17, National Universities

Notre Dame offers undergraduate students an educational experience that is second to none in quality and, at the same time, distinctly Catholic. Faith informs learning at Notre Dame, and the University's students are urged to turn their learning to the service of others. The community life of the highly residential campus is distinctive, but Notre Dame also ranks sixth in the percentage of its students who study abroad. Its graduation rate is among the top 5 in the country and its alumni are celebrated for their loyalty.

Inspired by the intellectual audacity and educational ideals of our founder, Benjamin Franklin, the University of Pennsylvania (Penn) offers a compelling mixture of world-class liberal arts coursework and pre-professional education. Students apply to one of four undergraduate schools---Arts and Sciences, Nursing, Engineering and Applied Science, or Wharton. Penn also offers an array of exciting interdisciplinary programs and courses which leverage the resources of different departments or schools, such as the Fisher Program in Management and Technology, the Huntsman Program in International Studies and Business, and the Vagelos Program in Life Sciences and Management.

Students are strongly encouraged to engage the world beyond Penn, both locally and globally. Civic House provides a "hub" for students interested in all kinds of community service while the Center for Community Partnerships coordinates over 150 Academically Based Community Service courses each term which link theory and practice through activities that make a significant difference in West Philadelphia and the City. Opportunities for global engagement include Penn Abroad, through which more than 600 Penn undergraduates each year spend a semester or longer abroad, more than any other Ivy League school. Nearly 15% of our undergraduates come to Penn from other countries, providing a linguistically and culturally diverse environment.

As one of the world's premier research universities, Penn offers students the opportunity to learn by participating in the hands-on creation of new knowledge. The Center for Undergraduate Research, the Kelly Writers House, the Weiss Tech House, and the Penn Museum are places that connect undergraduates to leading researchers at Penn and to the cutting-edge ideas of its laboratories and seminar rooms. The academic experience at Penn is integrated with social and extra-curricular life. Almost all first-year students reside within the eleven College Houses at Penn, which link intellectual and social experiences through close contact with faculty-in-residence and student resident assistants. Penn has over 300 student groups ranging from political action to performing arts to sports clubs to student publications offering all students opportunities to pursue a wide-range of interests.

Such opportunities extend beyond campus to the City of Philadelphia where students can experience the rich cultural, athletic, social, and political life of America's most historic city. Today Ben Franklin would marvel at the intellectual and social excitement of the diverse and dynamic institution he founded.

University of Toronto

Location: Toronto, Ontario (urban)

Undergraduate Enrollment: 33,320

The university was the birthplace of insulin and stem cell research, and was the site of the first practical electron microscope, the development of multi-touch technology, the identification of Cygnus X-1 as a black hole, and the theory of NP completeness. By a significant margin, it receives the most annual research funding of any Canadian university. University of Toronto has top rated Engineering majors along with the traditional Arts and Sciences majors.

Vanderbilt University

Location: Nashville, Tennessee (urban)

Undergraduate Enrollment: 6,820

Designed to foster a sense of community for first-year students making the transition to college, The Martha Rivers Ingram Commons offers a living-learning residential experience, and has often been cited as a key source of friendship and camaraderie among our students, who keep in touch well after that crucial freshman year. Seven of The Ingram Commons buildings have been LEED (Leadership in Energy and Environmental Design) certified, making it one of the largest collections of LEED-certified buildings planned on a single campus in the Southeastern United States. Moreover, Vanderbilt Visions enhances The Ingram Commons by facilitating conversations about the college experience among first-year students, peer mentors, and faculty advisers.

Vanderbilt's study abroad program offers more than 100 direct-credit programs in Argentina, Australia, Austria, Chile, China, Costa Rica, the Czech Republic, Denmark, the Dominican Republic, Egypt, England, France, Germany, Israel, Italy, Japan, Russia, Singapore, South Africa, and Spain, among others. Service is also important to Vanderbilt students, who engage with the local and global community through a large number of volunteer programs and organizations such as Alternative Spring Break, which was founded at Vanderbilt and has since become a staple at many other universities.

Well-known speakers and musical acts always draw a crowd on campus through the popular Rites of Spring festival, which takes place on Alumni Lawn, as well as IMPACT, Commodore Quake and other events conceived of and executed almost entirely by students. Indeed, Vanderbilt's location in Midtown Nashville, in the heart of Music City, provides something for everyone: a rich supply of music from every conceivable genre, and an abundance of restaurants, theaters, shops, museums, and coffee shops, all within walking distance of campus. Outside Nashville, the state of Tennessee is home to the Great Smoky Mountains and state parks featuring beautiful lakes and prime hiking trails.

Regarding financial aid, Vanderbilt practices a need-blind policy for all U.S. citizens and eligible non-citizens, and promises to meet 100% of demonstrated need for all admitted students. Students' need-based aid includes a combination of grant monies and federal work-study funding and does not include loans. Additionally, the university offers merit aid to approximately 3% of applying students. The three signature merit programs -- the Ingram Scholarship Program, Cornelius Vanderbilt Scholarship Program, and Chancellor's Scholarship Program -- require a separate application and each award includes full tuition plus a summer stipend.

Vassar College

Location: Poughkeepsie, New York (suburban)

Undergraduate Enrollment: 2,370

SAT: 670 – 740 (Critical Reading)

650 – 730 (Math)

660 – 750 (Writing)

ACT Composite: 30 – 33

US News Ranking: #10, Liberal Arts Colleges

Intellectual inquiry at Vassar is characterized by an unusual degree of flexibility. The college does not have a core curriculum and students can declare a major by concentrating in a department, an interdepartmental program, a multidisciplinary program, or an individually tailored field of study in the Independent Program. This intellectual freedom produces original thinkers and has shaped the very essence of Vassar's academic life.

Testing: SAT and 2 subject tests

1 Jan (Early Decision II)
1 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

In fact, the encouragement of interdisciplinary and multidisciplinary studies has distinguished Vassar academics at least as far back as the early 1900s -- when the college began offering interdepartmental courses -- and the wide-ranging exchange of ideas has steadily inspired an array of new courses, programs, and resources. Vassar now boasts a dozen multidisciplinary and interdepartmental programs ranging from Latin American and Latino/a Studies to Environmental Studies and Cognitive Science, the latter for which Vassar was the first college or university to offer a bachelor's degree (1982). The college's oldest such program, Africana Studies, celebrated its fortieth anniversary in 2009, and Media Studies became the newest of these programs in 2004.

As a result, Vassar's curriculum is broader, richer, and more varied than ever, now offering students a choice among 29 departments, 6 interdisciplinary programs, 12 multidisciplinary programs, 49 majors, and over 1,000 courses.

Wake Forest University

Location: Winston-Salem, North Carolina (suburban)

Undergraduate Enrollment: 4,780

SAT: 610 – 700 (Critical Reading)
620 – 700 (Math)

ACT Composite: 28 – 33

US News Ranking: #27, Liberal Arts Colleges

One of the nation's most respected private schools, Wake Forest University is a collegiate university recognized for its outstanding academic reputation and challenging liberal arts curriculum. With 4,500 undergraduates, the University provides the highly personalized attention characteristic of America's most selective private institutions coupled with the breadth and depth of a large research institution. Founded in 1834, Wake Forest is committed to personal education, inquiry and exploration, and service. The Graduate School for Arts and Sciences, along with professional schools in law, medicine, business and divinity, enrich the intellectual environment and provide robust resources to undergraduates, as do extensive programs in international studies, entrepreneurship and undergraduate research.

Testing: TOEFL

Deadlines: 15 Nov (Early Decision I)
1 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

The University further distinguishes itself through its beautiful residential campus, sophisticated computing and networking technology, and Atlantic Coast Conference athletic programs. The vibrant campus offers students opportunities to get involved, explore ideas, and take initiative to create programs and events of their own. Wake Forest professors embody the teacher-scholar ideal, which links exceptional teaching with fundamental research and discovery. This results in meaningful research opportunities for students and classroom experiences with professors who are relevant in their fields. Undergraduate classes are taught by full-time faculty, not graduate assistants.

Wake Forest's motto, Pro Humanitate (for humanity), is at the heart of the University's identity and reflects a dedication to making a difference in the world. Volunteerism is a priority among Wake Forest students, who serve regularly at local agencies or travel around the country and the world to participate in various projects.

Wake Forest is home to the Center for Nanotechnology and Molecular Materials, which works closely with industry leaders to transfer its groundbreaking work in nanotechnology to practical applications in the areas of medicine, manufacturing and national defense. The Wake Forest Institute for Regenerative Medicine is an international leader in the translation of scientific discovery into clinical therapies. Wake Forest received a significant grant from the National Endowment for the Humanities to support its new Humanities Institute and has developed new initiatives to support sustainability, entrepreneurship, public engagement, translational science, bioethics, and molecular signaling.

Washington University

Location: St. Louis, Missouri (urban)

Undergraduate Enrollment: 7,300

SAT: 690 – 760 (Critical Reading)
710 – 780 (Math)

ACT Composite: 32 – 34

US News Ranking: #14, National Universities

Washington University in St. Louis is a research university that offers a unique environment for undergraduate students to learn and grow. Unparalleled curriculum flexibility and learning opportunities in a friendly and supportive community inspire undergraduates to explore their interests and develop new ones. Working with their advisors, undergraduates may choose a traditional single major, as many do. Others combine majors with minors, second majors, and pre-professional programs -- all within their four-year undergraduate experience. We encourage our students to participate in internships, study abroad programs, research and scholarship, and over 300 clubs and organizations, rounding out Washington University's commitment to help each student identify and pursue his or her passion. Our students pursue their passions every day.

ACT Composite: 29 – 32

US News Ranking: #6, Liberal Arts Colleges

Wellesley College, one of the most academically challenging institutions of higher education in the country and widely acknowledged as the nation's top women's college, provides its 2,300 students with an array of opportunities that create the richest possible educational environment. Wellesley prepares women to realize their own highest ambitions and compete in any setting. Offering more than 1,000 courses in 54 established majors, the College also supports more than 100 student clubs and organizations (as well as 14 varsity teams) that serve a wide range of interests. It is this broad-based educational and experiential excellence along with its dedicated faculty, small class size (averaging 17-20, with a student/faculty ratio of 8:1), and strong sense of community--that distinguishes Wellesley.

Testing: SAT and 2 subject tests
or
ACT with Writing
and TOEFL

Deadlines: 15 Jan (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

As an institution that focuses solely on the ideals of a liberal arts education (and does not offer graduate programs), Wellesley is able to dedicate all of its academic resources--faculty, facilities, and research support to its undergraduate students. Admission policy is "need-blind" for U.S. citizens and permanent residents, admitting applicants without regard to their ability to pay, and making Wellesley one of the few colleges to meet 100 percent of demonstrated financial need; additionally, its generous policies eliminate loans for students with the greatest need, creating one of the most socioeconomically diverse colleges in the country. In fact, Wellesley awards financial aid to 54 percent of its students, placing it among the handful of colleges and universities that provide financial aid to more than half its students. (The average award in grants, loans, and work-study in 2010-2011 was \$37,601.)

Each year several hundred women spend a semester (or year) studying abroad, where their financial aid applies; cross-registration is available with MIT, Olin College of Engineering, Babson, and Brandeis; and active exchange programs are offered through--among others--the Twelve College Exchange Program and Spelman College. Through its Center for Work and Service, Wellesley offers outstanding career guidance and internship programs with about three-quarters of students engaging in at least one internship. The Center awards stipends of \$3,000 each to 300 students a year, making it possible for them to create their own unique internships or take advantage of an otherwise unpaid opportunity.

Twenty-one residence halls house from 140 to 285 students from all four classes and from 84 countries and 48 states, making Wellesley one of the most diverse colleges in the nation. Celebrated for the many extraordinary facilities on its beautiful 500-acre campus, Wellesley is home to the Lulu Chow Wang Campus Center; the Science Center; the Knapp Media & Technology Center; the Margaret Clapp Library; the Davis Museum & Collins Cinema; the Keohane Sports Center; the Hunnewell Arboretum & Alexandra Botanic Garden and Ferguson Greenhouses; the Jewett Arts Center; the Nehoiden Golf Course; the Newhouse Center for the Humanities; the Pforzheimer Learning and Teaching Center; the Slater International Center; the Wellesley Centers for Women; the Whitin Observatory; the Wellesley College Theatre; and the Albright Institute for Global Affairs, which educates women for leadership in the world. Alumnae commitment to the College and its mission is renown , and the connections among the 32,000 active alums' including U.S. Secretary of State Hillary Rodham Clinton '69, former Secretary of State Madeleine Albright '59, ABC News anchor Diane Sawyer '67, and former Space Shuttle Commander Pamela Melroy '83--are strong. Wellesley is just outside of Boston, a city rich in theatre, art, sports, and entertainment...and populated with tens of thousands of college students.

Wesleyan University

Location: Middletown, Connecticut (suburban)

Undergraduate Enrollment: 2,880

SAT: 640 – 740 (Critical Reading)

660 – 740 (Math)

650 – 750 (Writing)

ACT Composite: 30 – 33

US News Ranking: #17, Liberal Arts Colleges

We believe that liberal education should instill capacities for critical and creative thinking that can address unfamiliar and changing circumstances, engender a moral sensibility that can weigh consequence beyond self, and establish an enduring love of learning for its own sake. With the help of our faculty, Wesleyan students develop their own unique programs of study, which reflect their own interests and address capabilities we believe are essential to effective participation in a global society. Our faculty are active, well-known scholars, and the community is intellectually lively, so students have resources and support for accomplishing serious scholarly work as undergraduates.

Yale is both a small college and a large research university. The College is surrounded by thirteen distinguished graduate and professional schools, and its students partake in the intellectual stimulation and excitement of a major international center of learning. The faculty is known for its special devotion to undergraduate teaching. Many of Yale's most distinguished senior professors teach introductory courses as well as advanced seminars to undergraduates. Faculty members are accessible to students and take a great deal of interest in working closely with undergraduates. Yale's curriculum allows students to achieve both breadth and specialization across several disciplines, including six engineering disciplines. In addition to probing a major field in depth, students are expected to explore three important areas of knowledge - the humanities and arts, social sciences, and natural sciences. While exploring several subject areas, students are also expected to sharpen their writing, quantitative, and foreign language skills.

31 Dec (Regular Decision)

Equity Group Foundation - Scholarship University Profiles

Yale's unique residential college system organizes the student body into twelve small communities where students live, eat, socialize, and pursue academic and extracurricular activities. Before arriving as a freshman each student is randomly assigned to one of the colleges, giving students a built-in community from the moment they arrive. Most Yale students become convinced that their residential college is the best residential college. Each college is home to a microcosm of our undergraduate student body as a whole, and allows students to have the cohesiveness and intimacy of a small school while still enjoying the vibrancy and resources of a world-class university.

Yale students are actively involved in the New Haven community, benefiting from and enhancing the city's many cultural, recreational, and political opportunities. New Haven boasts diverse and abundant resources in the arts. There is a vibrant cultural and artistic life in the city, a myriad of opportunities both academic and social, and a remarkable choice of places to eat. New Haven is part of a Yale education: the experience of contemporary urban life broadens students' perspectives and helps prepare them for life after college.

Yale students have a long tradition of intense involvement with extracurricular activity. There are more than 450 active organizations on campus, ranging from the Undergraduate Math Society to the Yale Hunger and Homelessness Action Project, and including 50 performance groups and 60 cultural associations. This enormous range of opportunities endows Yale College with a palpable energy and spirit of commitment.

But perhaps the first thing that students notice about their college is the caliber of their fellow students. There are extraordinary artists, student government leaders, star athletes, passionate activists, award-winning poets, prize-winning scientists, and people who are just simply "well-rounded." Because Yale students come from such a wide range of ethnic, religious, cultural, geographic and socioeconomic backgrounds, there is a remarkable exchange of ideas. Yale is a major research university that focuses primarily on undergraduate education and encourages students to become leaders of their generation in whatever they wish to pursue.

York University

Location: Toronto, Ontario (urban)

Undergraduate Enrollment: 48,589

York University is the leading interdisciplinary teaching and research university in Canada. York offers a modern, academic experience in Toronto, one of the world's most multicultural cities, and is host to a dynamic community of more than 54,000 students, 7,000 faculty and staff and more than 250,000 alumni worldwide. York's 10 Faculties and 28 research centres conduct ambitious, groundbreaking research, cutting across traditional academic boundaries. This distinctive, interdisciplinary approach brings fresh insights and solutions to real-world challenges.

Equity Group Foundation - Scholarship University Profiles

The University has two unique campuses: the Keele campus in Toronto's north end presents extensive facilities in a modern, self-contained environment. This high-energy, urban setting features five libraries, three theaters, seven art galleries, a shopping mall, and a student centre. Glendon, our bilingual, liberal arts campus located in mid-town Toronto, was created to foster future leaders with a personalized, international and interdisciplinary education. Glendon differs from all other Canadian universities by offering courses within the context of two languages and cultures, English and French. No other university in Ontario provides such an integrated experience with an international flair. York's campuses truly offer a vibrant community for top scholars seeking a multi-cultural, cosmopolitan atmosphere.

A selective university with strong admission standards, students may be required to present higher averages with specific preparation in certain subject areas for limited enrolment programs. The GCE Advanced Level courses, AP® courses, and the International Baccalaureate are recognized for admission and transfer credit. Students studying in the AP® curriculum may receive a maximum of one year of University credit towards their York degree. York University is accredited by The Association of Universities and Colleges of Canada.

York's residential spaces are comprised of furnished single rooms, double rooms or suites. The extracurricular community offers more than 300 student clubs, two radio stations, 13 student newspapers, student governments, and a variety of sports teams. Athletic facilities include the Rexall Tennis Center; Toronto Indoor Track & Field Center; six ice skating rinks; swimming pools, squash courts, weight rooms, and a stadium. Public transit makes York easily accessible to Greater Toronto Area neighbourhoods and the Lester B. Pearson Airport. This dynamic community combines academic and extracurricular activities in an experience that beckons to international students all over the world. Consider your future at York University.
