COLLEGE COUNSELING OFFICE

Teacher Letters of Rec Guide

The Teacher LOR is different from the Counselor LOR.

Teachers focus on:

- The student's experience with the curriculum, in your class, or linking class content to hobbies/internships/jobs.
- The student's academic or intellectual skills, growth, or improvement, in your class.
- The student's engagement in your class.
- **Use personal, specific examples, details, insights, and/or observations.**
- After presenting numerous times in recent years with college admissions professionals from various types of institutions, the consistent request is to **keep letters to 1-page**, unless the student's story &/or accomplishments merit more than 1-page.

The **RH** Teacher Letter is different:

- Small class sizes, smaller teaching loads
- More opportunity to spend time with students, get to know students
- More time, and compensation, to write specific, detailed, and personal letters.
