SCHOOL PROFILE

A BRIEF HISTORY

Located about 20Kms West of Nairobi, Alliance High School is a boy's only public boarding school. It was founded by an alliance of churches namely: the Presbyterian Church of East Africa, the Methodist church, the Anglican church and the African Inland Church hence the name Alliance, bequeathed to it by the Alliance protestant mission in Kenya. The negotiation that eventually led to the building of the Alliance High School began in 1919 but the school officially opened its door to its first class of 26 students in 1926 as the first institution for secondary education for Africans in Kenya.

THE FACE OF KENYA

Alliance High School in many ways is the face of Kenya. In the last 90 years, the school population has risen from 26 boys in 1926 to 1645 in 2018. The school's enrolment religiously follows the quota system in which the top 2 applicants from every district in the republic are admitted regardless of their socio-economic background, tribe or religious persuasion. The boys are distributed in 8 streams in each form with each class having a population of about 53 boys each.

NEEDY STUDENTS

Ironically, the school's achievement and pride in admitting boys purely on academic merit and in total disregard of their economic background, is also the school's biggest challenge. An enormous 40% of the boys that are admitted at the school are brilliant but from economically poor backgrounds and therefore cannot be able to pay the full fee. Consequently, the school administration is constantly engaged in seeking ways and means of keeping such boys in school through the sponsorship department.

CURRICULUM

Alliance High School follows the national curriculum leading to the Kenya Certificate of Secondary Education. The school offers 17 subjects which are grouped as listed below:

Group 1	Group 2	Group 3
Mathematics	Physics	Christian Religious Education
Kiswahili	Biology	History
English	Chemistry	Geography
Group 4	Group 5	
Computer	Music	
Agriculture	German	
Electricity	French	
Art and Design		

The curriculum gives students a wide range of options in selecting subjects that will shape their careers. Alliance seeks to enable its students to take advantage of the most demanding university programs thus instead of the 7 minimum number of subjects that one can sit in the national exams, our students take up 8. Group 1 and 2 subjects are compulsory.

The students then take one subject in group 3 and the 8th is picked in either group 4 or 5. Despite the rigorous program, students graduating from Alliance have consistently performed well and have been recognized by leading colleges and universities throughout the world.

ACADEMIC PERFORMANCE

The schools grading system is as follows:

88-100%	A	44-51%	C
81-87%	A-	36-43%	C-
74-80%	B+	30-35%	D+
67-73%	B	25-29%	D
60-66%	B-	21-24%	D-
52-59%	C+	0-20%	E

Since its founding, Alliance High School has consistently ranked among the top in the national exam .On average 95% of the school's candidature is admitted to public universities, the bulk of them in professional courses.

EXTRACURRICULAR ACTIVITIES

In the pursuit of a holistic student, the Alliance curriculum is extended by diverse activities that enhance the interests and talents of students, encouraging service and fostering leadership skills. The variety of extracurricular activities offered include: drama, choir, publications such as the School Magazine; school leadership through the prefect body; community service through the Social Welfare society, Sunday school teaching and visits to hospitals and Senior Citizen's homes. The school also has the following clubs; Scouting, United Nations Forum, Debate, Wildlife, Environmental, Business, Young Farmers, Scientific, Computer/Aviation, President Awards Scheme, Interact and SEAL. There are also opportunities for international education experiences through Exchange Programs with Brooks School in the USA, Sir John Leeman High School in England, Governor Academy – USA, KGS – Germany, OURE – Denmark, Kings Budo College- Uganda and Yale University High School program. The drama and choir productions consistently win regional as well as national honors. The Scientific and innovation club have often won prizes at national and international competitions.

SPORTS

We do not expect all boys to be good athletes, but we encourage physical fitness and the experience of organized sports. Students learn the importance of physical fitness through school-wide cross-country runs, as well as the value of teamwork and good sportsmanship in both individual and team sports. Sports within the school include: Basketball, rugby, soccer, track and field, hockey, volleyball, handball, swimming, lawn tennis, table tennis, chess, taekwondo and baseball. Alliance High School competes against other schools in all these sports. The pursuit of excellence has seen individuals and teams win national as well as regional honors in almost all of them.
